7 INDUSTRY-LEADING HEATING SYSTEM

Oversize 4-inch heat ducts run from the furnace down to the fully enclosed underbelly and wrap around the tanks suspended between the chassis I-beams. Holding tanks are warmed by the forced air heat which prevents freeze-ups.

A return at the end of the tank connecting back into the coach provides the necessary air flow.

We stand behind our products. At Highland Ridge RV, we are one of the few manufacturers that have a 3-Year Limited Structural Warranty.

MORE ROOM
LESS WEIGHT

This is our mission at Highland Ridge RV. It drives us to innovate and revolutionize the RV industry and it's why our products are 10 - 15% lighter than the competition.

Our Pet Friendly units offer linoleum throughout the main living areas, and no floor registers.

We put our products into a zero degree chamber for five hours with thermometers placed in key areas throughout the unit. The results speak for themselves.
