HIGHLANDER

BY HIGHLAND RIDGE RV

INTERIOR

KITCHEN & LIVING ROOM

HT31RGR Living Room

The Highlander, by Highland Ridge RV, is designed for the toy enthusiasts. With large garage carrying capacities for multiple single riding vehicles, or the ever growing side by side vehicles, Highlander has what you need. The interior is designed with comfort in mind, which you have come to expect from Highland Ridge; from the true queen bed to the U-lounge seating with reclining ends. Nothing is spared in the kitchen when it comes to functionality including a full 17" stove/range and large double bowl undermount sink with high-rise faucet. With several floorplans available, and more to come, it will be hard to choose how and where to spend your time with a Highlander; whether it be inside relaxing, outside entertaining on the patio ramp, or enjoying the outdoors. So pack up the family and toys to enjoy the highlands and lowlands with a Highlander from Highland Ridge RV.

HEATING DIAGRAM

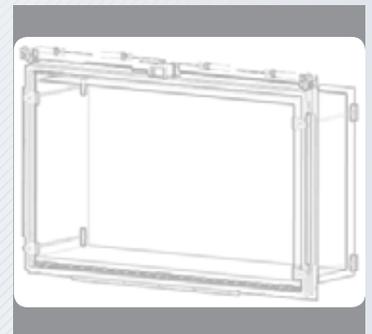

Highlander travel trailers have a unique and incredible heating system. We start with a 4 inch heat duct from the furnace down the the underbelly in place of the 2 inch that some of the competitors use. All of our tanks are suspended between the I beams in the underbelly allowing us to have forced air heat blowing from the 4 inch heat duct surrounding the tanks with warm air flow.

How do we get the air flow? Simply by having a return at the end of the tanks going back into the coach. The secret is that simple. We put a return in the underbelly to allow air flow over the tanks instead of a pressurizing system that occurs in other brands.

Seal-Tite Water Shield

Seal-Tite – a semi-robotic system that makes the placement of window sealants more precise and error-free – thus eliminating the hand application of such sealants which can often result in inconsistency.

Accu-Slide

So ingeniously designed and simple to use, you're likely to think it's magic. Accu-Slide is a revolutionary, lightweight, heavy-duty system that increases quality and customer appeal through superior performance and engineering.

DÉCOR OPTIONS

ZERO DEGREE TESTED

The Highlander was subjected to 0° F temperatures for an 8-hour period. During that time, sensors were placed throughout the coach to measure the unit's average temperature. When the test was complete, the temperature sensors found that the Four Seasons Package maintained a cozy temperature of 70° F.

THE RESULTS

BEDROOM	72°F
KITCHEN.....	70°F
SLIDE-OUT	66°F
BATHROOM.....	72°F
LIVING ROOM	70°F
WASTE WATER TANK.....	62°F
STORAGE UNDER RV	58°F
